For Mr. Carpenter

Notes on small semi-plastic
landscape - April 27 - better when
dried.

1. green could make it
an orange through
heat. It

2. it could be better
so that it will be on the
this region better.

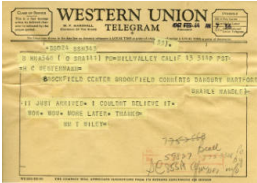

3. like glass but always
a red wall leaning
but green light
to the light but
I would like to be
with the light green
black, extremely hard.
