

Basic Detail Report

Dec 18, 1976
Den Martin, Mike & Gail:
Thank you for your
good letter. Martin & I were sure
enjoyed the newspaper article
about Forestiere's underground
carved house. He reminds
me of Simon Rodia
(with towers in L.A.) only
Rodia went up (about 100 ft)
instead of down. &
Rodia's towers took about
40 years to build. I
got some rather good news
last night. Alvin Franklin
phoned & said if he had been
set. They are going to give
me the big one at the
Whitney Museum in 1978.
A retrospective with a good
cat. log, everything - pieces,
watercolors, woodcuts, the works.
That's a big deal because
the Whitneys' quite a museum.
Apparently the show had a
good response in Chicago
(closed Dec 10) & they said
a lot of work. I
never sent you an announcement
because they never sent

Cards, Letter and Announcement
