# **Basic Detail Report**

October 31, 1981.

Dear Joanna and Cliff -

We find heard of Cliff's new exhibit from my daughter Main, who wand about it in blooking ton when she is in har last year at Geo. Washing to University, majoring in Out Hutsoy. Hopefully, The Kibs are getting ellgrown up and somewhat as their own. Els bette is now 25 and living in Phoenix, Ar, doing her things.

So where I first opened your annumement, I said to Mariano, "Looks livi Cliff has some leftone wire lathe, and the plateing runt he complete."

Good lick with "Jack of Diamondo."

Marianne had a Transmoone genten This past Junoce and is still harvesting Brund 5 proofs, Kake, carbage, and Breachti. She groze and caumed a lot and made a let of four from the cantaloupen.

In September, we both west back to college - Warron where we are brushing up on languager and Harrann is strelying Tax hur in Graduate School. Going back to school after to years is mentally stimulating but takes too sewel time and after the sewester, I'll take off for awhile. This around I'm still working on the new atuke, mortly painting.

Sincere Best Wisher
