### Description

Received HCW's grim descriptions of time with Carl and Betty. Her Dad is going to the hospital in a few days and she's going to have her rash seen to. She's depressed about the election results--like being back in the 1950s. Updates him on work and the house. She is saving the bridge ties for HCW. She mentions Mrs. Clark [neighbor] and a situation with their property. Also mentions the collage drawings she sent him.
